

SIERRA CYBERNETICS, INC.

Document Image Management Services and Products for Government Agencies

Throughout the 1990's and into the 21st century, Sierra has been a preeminent integrator of tailored and turnkey document imaging systems for government agencies and commercial enterprises. Our government clients have included:

- City of Orange City Clerk
- California Dept. of Insurance
- City of San Francisco
- Lawrence Livermore Labs
- Buena Park Police Dept.
- California State University at Monterey Bay
- California Dept. of Health Services.

We offer imaging services and partnering relationships with several leading manufacturers of image management and eCommerce products.

- Optika and its Acorde line of workflow centric imaging, COLD, capture, and storage software
- Legato and its Xtender imaging, COLD, and storage solution software products
- AnyDocs OCR and forms processing software
- Kofax Adrenaline scanning hardware and Ascent Capture software
- Hewlett Packard and Plasmon jukeboxes
- Fujitsu, Kodak, Bell & Howell scanners
- Gateway, Dell computer products
- Oracle, SQLServer database solutions
- Microsoft products and development
- Custom imaging configurations
- Site and phone support maintenance
- Imaging consulting
- Scanning outsourcing.

We will soon be offering professional services to assist clients with their compliance and records management needs, in response to increased regulatory (e.g., Sarbanes – Oxley legislation) and senior management emphasis on information management and information risks.

For our government clients, we offer three general services type Information Technology contracts.

- California MSA Imaging #5-03-70-98
- California CMAS IT #3-02-70-0254C
- Federal GSA IT #GS-35F-5408H.

We offer a standard imaging maintenance agreement for hardware, software, site support, and help-desk, including 24 /7/4 response.

We provide fixed price or T&M services, using our MSA Imaging contract for government projects, supporting these services.

- Electronic Document Imaging
- Electronic Document Management
- Electronic Workflow
- COLD/ERM
- Database Management Software
- Electronic Forms Software
- Capture Sub-Systems Software
- Records Information Management.

Sierra's Imaging and Workflow Division provides imaging, document management, and workflow solutions for government agencies and commercial clients. Contact Carl LaPlante, President, claplante@sierracyber.com or George Rodriguez VP, grodriguez@sierracyber.com.

1. Quantities represent concurrent users on a single network. Includes Ascent Capture software, documentation, and hardware keys. Please note the following:

- Monthly scan licenses support all Ascent Capture functions (with one exception: 5K scan licenses support only scan and QC when used in networked configurations).
- Page count scan licenses support only scan and QC.
- Workstation licenses support all functions except scan and QC.
- Hardware keys cannot be daisy chained on a single PC.

3. The Ascent Computer Based Training Kit (TR-1000-2001) includes certification of one person who successfully completes the program. Additional certifications can be accomplished by purchasing TR-1000-2002 for each person to be certified. TR-1000-2002 is available only to those customers who have previously purchased TR-1000-2001.

4. RecoStar Professional is an upgrade to the standard RecoStar OCR/ICR engine included in Ascent Capture. RecoStar Professional includes an additional recognition engine and state-of-the art "voting" technology to enhance recognition with challenging documents. RecoStar Professional is licensed based on the number of characters per second (cps) that can be processed by the engine.

6. Does not include travel and expenses.

7. The starter package is designed to suit most Ascent installations. The prices listed are available only when the components (PS-2001/PS-2002) of the Starter Package are ordered together. Users with complex needs should contact Kofax Professional Services directly to plan a custom engagement. The standard starter pack includes 40 hours of professional services consulting including a needs analysis and review of specific user requirements. Services also include installation, configuration, and set-up of Ascent Capture software for a defined number of scan and workstations, batch and document classes, and a standard Kofax release script. Final testing and operational training is also included. Specific terms of the starter pack are shown on www.kofax.com/services.

8. IBM ContentManager/400 (WAF) versions of Ascent Capture include host connectivity software on CD-ROM media.

You may order the host software in one of the following tape formats free of charge: ¼ inch cartridge (SW-1000-0101), 8 millimeter (SW-1000-0102), ½ inch cartridge (SW-1000-0103), or reel-to-reel (SW-1000-0104).

UPD-000900		Annual Software Update Subscription service for RepliStor Solutions	15% of software list price

NOTE: To receive the proper level of technical support for the Replistor software solution you must order Basic, Extended or Premier Support for this product. Standard and Premium technical support do not apply to this software solution. In order to receive one year updates, customers must purchase Update Service. Please see the LEGATO Global Services section for more details on ordering Basic, Extended and Premier technical support and Update Service for this solution.

LEGATO GLOBAL SERVICES

LEGATO's service and support organization is a global network of teams with expertise across our broad offering of business solutions. Our organization consists of individuals with years of industry experience and knowledge that works together to provide you with the responsive software service and support your business needs require. Please contact your local Support Sales & Renewal Representative for all support renewal requirements.

Technical Support Services

LEGATO offers annual Maintenance Plans that include unlimited software technical support, major and minor software updates, software patches and service releases for LEGATO Content Management Solutions. A maintenance agreement must be maintained in order to receive software updates. If an end user has allowed their maintenance agreement to lapse for less than one year, the list price to reinstate maintenance will be nineteen (19%) percent of software list price. Where an end user has allowed their maintenance agreement to lapse for one year or longer, the list price to reinstate maintenance will be twenty-eight (28%) percent of software list price.

*Note: The support anniversary date will commence upon receipt of purchase order or credit card (NOT based on activation date) for a period of 12 months. In order to receive major and minor updates to the software, customers should maintain a current maintenance agreement that includes software updates and technical support for the XtenderSolutions. Support is required for the first license unit and all supplementary license units.

Terms of Sale

Shipping and Handling

Shipping and handling will be prepaid and added to all invoices. Optika will determine the carrier for all shipments unless specified otherwise on the purchase order. A minimum shipping & handling charge of \$30.00 will be included for each domestic (USA) purchase order to Optika. A minimum handling charge of \$50.00 will be included for each international (outside USA) purchase order to Optika.

Re-stocking Fee

There is a re-stocking fee charged on any unused Optika product returned to Optika within 30 days of product shipment. The fee is 10% of the current Suggested Retail Price (SRP) of the returned products. Optika will only accept returns within 30 days of original product shipment.

Wire Transfers

The Advantage Partner is responsible for all wire transfer fees.

Credit Terms

All purchase orders to Optika must clearly state the Advantage Partner's credit terms as agreed upon with Optika.

Software Escrow

Access to Optika's software escrow account is available to Advantage Partners and end users of Optika's products upon the occurrence of certain events. Each Advantage Partner and end user must register for the escrow account in order to access the source code. Initial registration and yearly renewal fees are paid directly to Data Securities International, Inc. at (415) 398-7900. The software escrow account is frequently updated with the source code for the full family of Optika products.

Customer Profile Form

An order for Optika products cannot be fulfilled without a fully completed Customer Profile Form for each customer.

Product Deliverable

Unless otherwise specified on the Advantage Partner's purchase order, all orders will be fulfilled and shipped with Optika's current generally available product. The order will be considered complete at the time of shipment.

Pricing Structure

The Acorde product solutions consist of several independent components. Each component has a specific pricing structure. For those product components that use a client and concurrent connection structure, the pricing for client licenses is based on named users and the pricing for server connections is based on concurrent users. The pricing for server connections is based on the cumulative number of server connections per system. Additional orders for server connections are priced based on the pricing level for the cumulative number of server connections. For example, if a customer has previously purchased 100 server connections and wants to purchase an additional 10 connections, the customer would purchase those connections using the 100-199 pricing level, not the 10-24 pricing level (since its cumulative total will now be 110 connections).

Product Descriptions and Specifications

This price book does not provide definitive descriptions or specifications of the Acorde product solutions. Please refer to data sheets, release notes and product documentation for complete product information.

Advantage Partners are required to attend training and obtain certification to sell all products listed in this book.

Acorde License Fees

Overview of Pricing

There are several products components in the Acorde Family. The table below identifies the standard pricing method for each product. Please see the detailed section for each product for further information.

Pricing Overview

Product	Pricing Method	Description
Acorde Resolve	Fee based on number of virtual offices that can be created plus a site fee.	Acorde Resolve allows organizations to build web collaboration hubs, which deliver near and real time tools through a secure virtual office environment for resolving transaction discrepancies and collaborating around opportunities internally and with trading partners.
Acorde Context	Fee based on number of concurrent sessions plus a client fee.	Acorde Context provides imaging and report management (ERM) functionality that enables companies to securely capture, store, retrieve and display transaction documents and information, regardless of source or type.
Acorde Process	Fee based on number of concurrent sessions plus a client fee.	Acorde Process provides workflow functionality for automating processes and delivering business transaction information, within organizations and over the web to external users.
Acorde Desktop	Fee based on number of concurrent sessions.	Acorde Desktop provides a wide array of features, which result in true advantages for businesses and departments with up to 20 users – from convenient installation and setup to robust functionality at an affordable price.
Application Link Service	Flat fee per integration.	Application Link Service provides integrations with ERP and e-business technologies that enable line-of-business applications as a single source to all critical transaction information.
Acorde Full Text /OCR	Service and Connection based fees.	The Acorde Full Text Module is an add-on module that can be added to Acorde Context or Acorde Desktop. It provides OCR functionality and Full Text Indexing of documents stored in the Acorde system. It allows for those documents to later be retrieved via a Full Text search.
Acorde Capture	Service and connection based fees.	Acorde Capture is a suite of production level and distributed internet document capture tools for the Enterprise. It can be used with Acorde Context or Acorde Desktop.
Acorde Records Manager	Services and connection based fees.	The Acorde Records Manager is an add-on module that can be added to Acorde Context or Acorde Desktop. It provides record lifecycle and retention management, providing enhanced support for inactive records as well as active records, in both electronic and hardcopy forms.
Acorde Context & Process SDK	Flat fee per SDK.	The Acorde Context and Process SDK is a comprehensive COM-based Software Development Kit for enabling applications with the features of the Acorde product family, or customizing Acorde applications.
Acorde Resolve SDK	Included in the Acorde Resolve Site Fee.	The Acorde Resolve SDK is a comprehensive COM-based Software Development Kit for enabling applications with the features of Acorde Resolve, or customizing Acorde Resolve applications.

Acorde Context and Acorde Process Licensing

Client License – Suggested Retail Price Per License

SKU #	Client Type	Price	Description
CL-101	Windows Client	\$150.00/each	A dedicated 32-bit Windows client for users who utilize one or more of the Acorde Context or Acorde Process product solutions on a regular basis.
CL-102	Web Client	Free of charge	A Web browser-based client for the Internet that provides an HTML presentation and utilizes the COM objects or custom plug-ins.
CL-103	Custom Client	Free of charge	A client interface created with the Acorde Software Development Kit. (See Software Development Kit Licensing.) This does not include interfaces that run with or within the Acorde Windows Client.

Because Acorde is designed to benefit *every person* across the enterprise and value chain, Optika offers an alternative pricing model that allows an unlimited number of users access to the Acorde production client. This model is especially cost-effective for large companies and all other growing companies that wish to eliminate the need to purchase additional individual clients in the future. The following table describes charges for licenses of this type:

Client Site and Enterprise Licenses – Suggested Retail Price

SKU #	Type	Price	Description
CL-121	Client Site License	\$25,000	A client site is defined as all users within a corporation and/or the corporation's value chain. The site license is limited to a 50-mile radius from the locality where the server domain is installed. <i>This price does not include server connections.</i>
CL-122	Client Enterprise License	\$75,000	An enterprise is defined as all users worldwide within a corporation and/or the corporation's value chain. <i>This price does not include server connections.</i>

Acorde License Fees

Concurrent Server Connection Pricing

Server connection licensing is based on the number of concurrent sessions that will access the Optika Acorde standard services (see Software Assurance—Additional Services). One install of all standard services is included at no additional charge. The license fee for each server connection is based on the cumulative number of server connections licensed by the customer. Note that a two-product solution server connection or a three-product solution server connection counts as a *single server connection*. For example, a customer has 10 Acorde Context server connections and 15 Acorde Context/Process server connections and desires to purchase an additional 20 Acorde Context/Process server connections. This customer would be considered to have a total of 45 server connections and the pricing for the additional 20 Acorde Context/Process server connections would be based on the 25-49 server connection pricing.

Acorde License Fees

Acorde Desktop Pricing

Acorde Desktop pricing is for new customers or existing customers with new installations. It cannot be used to add concurrent connections to existing Acorde Enterprise installations. Acorde Desktop provides the same features and functionality of the standard-priced Acorde products (exceptions noted below). However, it is packaged and priced to target initial or pilot implementations of Acorde products.

Acorde Desktop SKU# (see note 8 below)	Server Connections (see notes 1,2,3 & 7 below)	Production Clients	License Fee With Acorde Capture	License Fee Without Acorde Capture
AD01-003	3	6	\$12,990	\$10,990

AD01-010	10	20	\$22,990	\$19,990
AD01-015	15	30	\$27,990	\$23,990
AD01-020	20	40	\$32,990	\$28,990

SKU #	Product	License Fee
AD02	Acorde Desktop ERM Upgrade (see note 4 below)	\$4,000
ADWA001	Acorde Desktop WebAccess Server (see note 5 below)	\$4,995
ADWV010	Acorde Desktop WebView 10 Pack (see note 6 below)	\$7,995
ADWV025	Acorde Desktop WebView 25 Pack (see note 6 below)	\$18,995

Notes:

- Included with the initial Acorde Desktop order are all of the following:
 - All Acorde Standard Server software (excluding WebAccess Server)
 - One scan and one index station if purchasing "With Acorde Capture"
 - SQL Server is required and is not included in the price
- Upgrading from one level to the next may be done by paying 1.2x the difference between the prices of levels. For example, a customer that currently has a 10 concurrent user system that would like to expand to a 15 concurrent user system would pay \$6,000 (1.2*(\$27,990 - \$22,990)).
- Acorde Desktop pricing may be utilized up to a total of 20 concurrent users. At the point of reaching 20 concurrent users, customer must use the Acorde Enterprise pricing. Customers that begin with Acorde Desktop must pay the Acorde Desktop WebAccess Server license fee prior to installing the web server (regardless of how many concurrent connections are licensed at Optika's Enterprise pricing).
- Enables all Acorde Desktop Concurrent Connections to utilize Acorde ERM. Connections beyond 20 must pay the ERM license fee under the standard Acorde pricing.
- Allows use of fully functioning web client. Full functioning web client utilizes a concurrent connection while logged into the system.
- Allows view-only access from a web client. The WebAccess Server must be licensed in conjunction with this. (These packs are not available to non-Acorde Desktop customers.)
- First year maintenance must accompany all orders. An additional charge of 2% of retail will apply to customers that do not allow dial-in access to the system for diagnostics and troubleshooting.
- Acorde Capture macro support is not included in the base SWA. Optika's technical support will provide support at \$150 per hour.
- The SWA for the system will be based on the equivalent Enterprise licensing fees if any of the following occurs: Acorde Process or any of the Acorde Integration tools are purchased, if the number of concurrent user licenses exceeds 20 users, or if a non-Microsoft SQL database is used. Also note that if a non-Microsoft SQL database is used that the installation will have to be done manually using GenCfg.exe on the Context/Process Application CD.
- Additional Acorde Add-ons may be purchased for Acorde Desktop. These are listed in the Add-ons section of the price book.

Acorde License Fees*Acorde WebView Pricing*

Acorde WebView™ pricing is an option to license view-only, web access concurrent connections. These connections allow casual users to view objects via the web at a significantly reduced price as compared to the fully functioning web or production concurrent connection pricing.

Suggested License Fee Per WebView Configuration

SKU #	Product	License Fee
WV-0025	Acorde WebView— 25 concurrent connections	\$23,990
WV-0050	Acorde WebView— 50 concurrent connections	\$32,200
WV-0100	Acorde WebView— 100 concurrent connections	\$54,500

License Limitations:

- To utilize Acorde WebView, customers must license a minimum of 10 Acorde Context concurrent connections.
- Above configurations cannot be altered or pro-rated.
- Acorde WebView does not support Acorde Process.

Acorde License Fees

Acorde Resolve Pricing

The license fee for Acorde Resolve is comprised of a site fee plus an additional charge based on the number of virtual offices that can be created. **The Acorde Resolve SDK is included in the license fee.**

Site Fee

The site fee for Acorde Resolve entitles the customer to create a web resolution hub. Included in the site fee is the ability to create up to 10 virtual offices. The site fee is charged for each physical site where the server software is installed. A physical site is the location of the Acorde Resolve web server. An Acorde Resolve site will have a URL linking the physical site. The site fee is not impacted by the use of the web server farms for fault tolerance and load balancing.

Suggested Retail Price Per Site

SKU #	Product	Site Fee
SF-001	Acorde Resolve Site Fee—first site (includes 10 virtual offices)	\$35,000
SF-002	Acorde Resolve Site Fee—subsequent sites (includes 10 virtual offices)	\$25,000

Named Virtual Office Fee

The license fee for each virtual office that can be created is based on the cumulative number of virtual offices licensed by the customer for each site (customers with multiple sites cannot accumulate the number of virtual offices across the multiple sites). A virtual office license is required for each virtual office created within the web resolution hub. Note that the 10 virtual offices included in the site fee are included in the calculation of cumulative virtual offices (although no additional fee is charged for the initial 10).

Cumulative Virtual Office Fee – Suggested Retail Price Per Virtual Office

SKU #	Product	Site Fee
AV-0050	11-99	\$500.00
AV-0100	100-249	\$400.00
AV-0250	250-499	\$320.00
AV-0500	500-999	\$250.00
AV-1000	1,000-4,999	\$200.00
AV-5000	5,000-9,999	\$160.00
AV-10000	10,000+	\$130.00

Acorde Add-on Licensing*Acorde Integration Tools Pricing*

Acorde Integration Tools™ pricing is add-on license integrations with windows, web or terminal emulation clients, which includes integrations with J.D. Edwards, Great Plains and Oracle. The Acorde Integration Tools pricing is based on a single license fee. The Application Link Service can be purchased to integrate with ERP or LOB applications.

Acorde Application Integration Suggested License Fee

SKU #	Product	Options	License Fee
EBP-LOB-001	Application Link Service	ERP or LOB Integration	\$15,000
EBP-ERP-001	Acorde Application Link for OneWorld	J.D. Edwards OneWorld Application Link	\$22,500
EBP-ERP-002	Acorde Application Link for WorldVision	J.D. Edwards WorldVision Application Link	\$22,500
EBP-ERP-003	Acorde Application Link for WorldSoftware	J.D. Edwards WorldSoftware Application Link	\$22,500
EBP-ERP-004	Acorde Application Link for Oracle 11i	Oracle 11i Application Link	\$22,500
EBP-ERP-005	Acorde Application Link for HLLAPI	Host Based Application Integration	\$10,000
EBP-ERP-006	Acorde Application Link for Great Plains	Microsoft Great Plains Application Link	\$12,500

**Note: Application Link Service is required for any integration with a line-of-business (LOB) or Enterprise Resource Planning (ERP) application. When necessary, individual adapters may be purchased to integrate with named LOB or ERP applications. For example, J.D. Edwards OneWorld integration would include the Application Link Service and the Acorde Application Link for OneWorld. The total cost to the customer would be \$37,500.*

Acorde Add-on Licensing

Acorde Full Text Pricing

The Acorde Full Text License must be purchased by any organization that wishes to perform full-text searches against documents stored in the Acorde Repository. It is available for an Acorde Enterprise or Acorde Desktop system. Acorde Full Text also includes the capability to OCR Acorde TIF images so they can be indexed into the full text database.

AFT - NFR - 001	Partner NFR 1k PPM Hardware License – Limit one per Partner (see notes 4 and 11 below)	Free
AFT - DEMO - 001	Customer Demo 1k PPC with 30 day expiration software license – Based on availability	Free

Notes:

1. PPM = Pages Per Month and is calculated based on a rolling 30 day count. Example: If you had a 25k license and used 1k per day for 25 days your license you would run out on the 25th day. On the 31st day the first day's licenses would be released and you would have 1k available. On the 32nd day another 1k would be released and available.
2. PPC = Pure Page Count and includes a limited number of pages without an expiration.
3. OCR = Optical Character Recognition. OCR is related only to machine printed texts. Hand written text capabilities (ICR) are not included at this time.
4. Hardware Dongle License = Includes software driver install. Can be moved from one Acorde OCR Service to another. Costs an additional \$50.
5. Software License = Includes a software install. Requires an Internet connection to activate. Cannot be moved from one system to another.
6. A SQL Server license is required for every Full Text Indexing and Full Text Concurrent License workstations. Optika. The SQL Server license fees are not included with the pricing listed above.
7. This enables Full Text indexing and searching on an Acorde 3.0 or higher system and includes 1 OCR License. This module will allow you to run one or many Acorde Full Text Services. The 1 OCR license will also allow you to configure one Acorde OCR Service and OCR up to either 25,000 PPM or 500,000 PPM dependant upon which level you purchased. You must have a separate OCR license for every Acorde OCR Service you wish to operate.
8. Dependant upon the overall load on your Acorde System, OCR document volume, and OCR document type you may need to add an additional Acorde OCR Server. This license allows you to enable an additional OCR Service on your Acorde system and OCR up to either 25,000 PPM or 500,000 PPM on that service dependant upon which level you purchased. You may have up to 36 Acorde OCR Services running on an Acorde system. You cannot buy this license type separately. You must have already purchased AFT-MOD-025 or AFT-MOD-500. You cannot run multiple licenses on the same server at the same time.
9. This license is intended to be used as an overflow license in case your PPM license runs out during any 30-day period. This license can also be used for backfilling purposes. This license is only available in a hardware dongle license. It can either be used on an existing Acorde OCR Service by removing the PPM dongle and replacing it with the PPC dongle. If your Acorde OCR Service were using the Software License you would need to install the overflow dongle on a separate Acorde OCR Server. You cannot buy this license type separately. You must have already purchased AFT-MOD-025 or AFT-MOD-500. You cannot run multiple licenses on the same server at the same time.
10. One is required for each Acorde Concurrent License you want to Full Text enable. Requires an Acorde Concurrent Connection as set forth on page 6.
11. Additional licenses can be purchased at retail pricing – partner discount. NFR shall be defined as “not for resale” and shall not be used for commercial use.

¹ The Acorde Records Manager server must be included in every Acorde Records Manager solution.

Acorde Add-on Licensing*Software Development Kit Licensing*

The Acorde Software Development Kit (SDK) license must be purchased by any organization that wishes to carry out software development with the Acorde Context and Process SDK. The Acorde Context and Process SDK includes the Acorde Context Toolkit and Acorde Process Toolkit as defined in the Acorde Software Development Kit White Paper. There is no additional charge for run-time versions of custom applications written with the Acorde Context and Process SDK. Standard Acorde Context and Process client and server connection licenses still apply.

An example of a situation in which the Acorde Context and Process SDK license would be required is if a customer wants to image-enable its organization's existing web-based line of business application. The customer would purchase the Acorde Context and Process SDK license and the customer's developer(s) would then create the integration with the Acorde Context and Process SDK. The customer can use the integration throughout its entire organization as well as sell the integration outside of its organization without having to purchase any additional Acorde Context and Process SDK licenses.

Advantage Partners wishing to use the Acorde Context and Process SDK to create custom applications for individual customers or for re-sale must also purchase the Acorde Context and Process SDK license. A customer that chooses to purchase an integration developed from outside its organization is not required to purchase the applicable Acorde Context and Process SDK license to run the integration.

Acorde Add-on Licensing*FilePower to Acorde Conversion*

Conversion paths to Acorde are available for existing *FilePower* and *PowerFlow* customers. For details, consult the Upgrading from *FilePower* to Optika Acorde White Paper that is included on Optika's Partner Web site.

The pricing for converting from *FilePower* or *PowerFlow* to Acorde is 10% of the total SRP of the equivalent Acorde client licenses/concurrent server connections. For example, if you currently have 100 Level III *FilePower* client licenses and 100 concurrent server connections, the cost of upgrading to Acorde is 10% of the suggested retail price of purchasing 100 Acorde Context client licenses plus 100 Acorde Process/Context (Core/ERM) concurrent server connections.

Note: To qualify for the 10% conversion pricing, the customer must be current on Software Assurance.

Acorde Software Assurance Pricing

Software Assurance and Licensing

Software Assurance coverage provides telephone support and all software updates and upgrades within the Acorde product family. Software Assurance is NOT an extension of the warranty period; rather it runs concurrently with the warranty period.

Optika provides three different levels of customer support as follows:

- ❑ **Basic Software Assurance** – All support services under this plan are provided to the Advantage Partner by Optika for the customer current on this plan. These support services include:
 1. Unlimited support calls regarding Optika product solutions, from the Advantage Partner to Optika, between the hours of 7:00 AM and 6:00 PM MST, Monday to Friday, excluding Optika holidays.
 2. A subscription to Optika's Eye on Support Technical Bulletin.
 3. Access to Optika's Technical Support Web Site which includes:
 - Technical Support Knowledge Base
 - File Central – patches, drivers, etc.
 - Incident Logging and Status Review
 - News Items and Product Information
 4. All updates and upgrades for the licensed software. (Note: Customers currently on FilePower are not eligible for the free upgrades.)
- ❑ **Standard Software Assurance**– This plan includes all of the services provided in *Basic Software Assurance* listed above with the addition of extended hours of support for critical issues, providing coverage 24 hours/day, 7 days/week, 365 days/year. As with *Basic Software Assurance*, these services are provided only to the Advantage Partner.
- ❑ **Customer Choice Software Assurance** – This plan gives the customer a choice to call, email, or submit via the Web, any Optika software support incident. The customer is required to have two designated contacts and complete the Optika technical certification courses for the product solutions covered under this plan. The following services will be provided to both the customer and the Advantage Partner in support of the Optika software covered under this plan:
 1. All of the services included in *Basic Software Assurance* listed above.
 2. Extended hour coverage for critical issues, providing support 24 hours/day, 7 days/week, 365 days/year.
 3. Response Time – Optika will respond to any critical Optika software issue within 4 hours. A critical issue is defined as the Optika system being down and non-operational.
 4. Developer Support – Support for application development efforts using Optika integration tools. This support is limited to the use of Optika development tools and APIs.

Note: There is a \$10,000 minimum maintenance purchase requirement for Customer Choice and Direct SWA. Customer must maintain at least one employee who is technically certified on the product he/she has installed.
- ❑ **Optika SupportView** – This option provides both Basic and Standard Software Assurance customers the ability to have access to the Optika Support Web Site with read-only access. Customers can access the Optika Knowledge Base, review their open and recently closed support incidents, and read Optika News and product information.

Acorde Software Assurance Pricing

Software Assurance Pricing

Software Assurance (SWA) pricing is based on the type of coverage desired (Basic, Standard, Customer Choice or Mission Critical), the timing of the order and payment of initial coverage (with initial order, or after order), and the timing of renewal payment for existing coverage (prior to coverage expiration or after coverage expiration).

The cost per year to the Advantage Partner for Basic and Standard Software Assurance is listed in the table below. SWA is based on a percentage of the suggested retail price (SRP) of all software. The percentage covers all of the seat licenses, server connections and one of each Optika standard service installed. Additional Optika services require an additional per unit SWA charge. All SWA prices are stated in cost to the Advantage Partner and are not subject to any type of discount structure. Optika bills the cost of Customer Choice/Direct SWA directly to the customer. A portion of the Customer Choice SWA will be paid to the Advantage Partner quarterly as has been previously published in the *Customer Choice Support Plan Description*, which may be obtained from Optika Sales Support.

SWA can be calculated by multiplying the total SRP of all server connections and seat licenses by the percentage in the table below. This covers all seats and server connections as well as one copy of each Optika standard service. For each additional Optika service, use the second table to determine the individual unit cost for SWA.

Software Assurance - Server Connections and Client Licenses (by Order Timing)

SKU # *	Product	Order Timing **	
		I	II
BA-XXX	Basic Software Assurance	10%	17%
SA-XXX	Standard Software Assurance	12%	19%
CC-XXX	Customer Choice Software Assurance	22%	27%
BA-WEB	Optika SupportView	\$1,000 per year	\$1,000 per year

* Note: The XXX in the Software Assurance SKU number represents the numeric portion of the corresponding Product SKU#. For example, the SKU number for Basic Software Assurance on a Production Client License is BA-101, where the "BA" stands for the SWA type and the 101 is the numeric portion of the Product SKU number CL-101.

****Order Timing I** With initial order or prior to existing coverage expiration.

****Order Timing II** After initial order or after existing coverage expiration.

Optika Services

Optika Engineering Services

Professional services of many types are offered by the Optika Engineering Services organization. They are designed to supplement the services offered to the end-user from Advantage Partners and to add value to you and your customer. Please call first to help us assess your needs and to schedule resources.

These services are provided on an as available basis. These services are available from Optika for \$1,500 per day plus expenses. The individual or company making a travel request is expected to cover all expenses (i.e., airfare, ground transportation, hotel accommodations, meals, etc.) plus the \$1,500 per day fee. These expenses will be billed directly to the requester, due upon receipt. For more information on Optika engineering services, please visit www.optika.com/services/Engineering/index.cfm.

Optika Solution Services

The following tables outline the standard rates and Advantage Partner discounts that apply to Technical Service Packs and Business Service Packs offered by Optika's Solution Services group.

Standard Rate Schedule

Resource Type	Standard Hourly Rate
Vice President	\$250.00
Director	\$225.00
Senior Program Manager	\$225.00
Program Manager	\$200.00
Chief Architect	\$225.00
Senior Architect	\$187.50
Architect	\$125.00

Discount Schedule

Hours Purchased	Advantage Partner Discount
0 to 40	0%
41 to 240	5%
241 to 640	10%
641 to 960	15%
961 +	20%

All discounts apply to hours purchased within a 6-month period. Purchased Service Packs must be used within 6 months of the target start date specified on the Solution Services agreement. Hours not used within that period will be forfeited and billed. Additionally, specific monthly resource plans will be made 30 days in advance. If written notice is not provided on changes to those plans at least 2 weeks in advance of the scheduled work date, the customer will forfeit those hours or must reimburse Optika for the hours.

One month notice between order date and target start date is required for all services. Without advance notice, resources will be provided on an "as available" basis.

Optika Services

The rates quoted do not include travel & expenses. The customer is expected to pay for reasonable travel & expenses associated with the engagement. Travel and Expenses (i.e., airfare, ground transportation, hotel accommodations, meals, etc.) will be billed bi-monthly as incurred for the engagement - due upon receipt. On-site work must be in at least in two-day increments per week.

Contact Solution Services directly to create a services agreement that defines the hours and resources required for the effort. For Technical and Business Service Packs, contact Derrick Crow, dcrow@optika.com or visit www.optika.com/Service/SolutionServices/index.cfm.
